### BUSINESS & FACILITIES GOALS:

- Implement recommendations within the Energy Savings Improvement Plan addressing energy conservation measures..
- Update district Needs Analysis and establish a linkage between the Needs Analysis and the capital budget
- Develop a plan to reduce the district's waste stream and increase recycling efforts
- Improve internal network infrastructure by upgrading all core network switches to gigabit and improve wireless network coverage by upgrading all access points and increasing the number of access points from 285 to 550 to enable seamless connectivity for current and future needs.
