CURRICULUM & INSTRUCTION GOALS:

- Each demographic group, school, and the district will meet the student achievement target as identified by the New Jersey Department of Education.
- Each high school demographic group will meet or exceed the State mean scale score on the SAT Critical Reading, Math, and Writing
- Analyze the K-12 science curriculum to prepare for implementation of the revised science standards, and prepare for any science standardized assessment directed by the New Jersey Department of Education
- Engage in an examination of best practices at the middle school level within and outside the Cherry Hill School District to identify short and long-term goals for middle level education in Cherry Hill.
- Using the External Program review conducted in the 13-14 school year, articulate short and long-term Special Education program goals. Develop and begin to implement action steps for short term goals
- Provide cultural proficiency training to all Anti-Bullying Specialists and forty percent of the School Safety Teams in the district
- Analyze climate survey data to identify and develop programs and practices for improving school climate and enhancing school culture
