

Attention Parents:

IMPORTANT FLU SHOT INFORMATION!

The State of New Jersey Department of Health and Senior Services has *mandated* that all preschool students under the age of 5 receive a flu vaccine between September 1, 2015 and December 31, 2015. Please schedule an appointment with your doctors early so that you can be assured access to the vaccine.

The following documentation must be submitted to the Barclay Early Childhood Center Nurse no later than December 11, 2015:

- Documentation from a Physician or Clinic indicating your child has received a flu shot; (or)
- A request for a religion exemption; (or)
- A note from your child's physician indicating that your child is medically exempt from receiving vaccine, based on a contraindication.

Students that are not in compliance must be excluded from school beginning January 4, 2016. The Department of Health will not grant extensions.

Please schedule an appointment early to avoid having your child excluded from school.
