December 14, 2021

Dear Cherry Hill Public Schools Community,

This morning, Cherry Hill High School West school staff were notified of threatening language on social media.

School administrators immediately notified Campus Police, Director of Security Anthony Saporito and the Cherry Hill Police. The Cherry Hill Police are investigating the non-specific threat at this time.

The social media message is the same message that has been seen by other school districts throughout the State of New Jersey, and it has been deemed a non-credible threat by other agencies. However, all of us in the Cherry Hill Public Schools and our local law enforcement take these matters seriously and are conducting a full investigation to ensure the continued safety of our school community.

Student and staff safety is our top priority. Specific protocols are followed in response to any threat to ensure a safe environment in our schools.

If additional information becomes available, we will communicate it to our community. To better assist school officials and law enforcement with our investigation, please encourage your children to share any information they may have with a school official. Voicing concerns in this manner helps us all keep each other safe.

Please feel free to call me if you have any questions.

Sincerely,

Joseph N. Meloche, Ed.D.  
Superintendent, Cherry Hill Public Schools
