The Board of Education requires all students to participate in a comprehensive, sequential, health and physical education program aligned with the New Jersey Student Learning Standards (NJSLS) that emphasizes the natural interdisciplinary connection between wellness and health and physical education. The primary focus of the NJSLS is the development of knowledge and skills that influence healthy behaviors within the context of self, family, school, and the local and global community. The mission of the NJSLS for comprehensive health and physical education is knowledge of health and physical education concepts and skills to empower students to assume lifelong responsibility to develop physical, social, and emotional wellness.

The NJSLS incorporate New Jersey statutes related to health and well-being of students in New Jersey schools. The following statutes incorporated into the NJSLS include, but are not limited to, the following requirements:

1. Accident and Fire Prevention (N.J.S.A. 18A:6-2) requires instruction in accident and fire prevention. Regular courses of instruction in accident prevention and fire prevention shall be given in every public and private school in New Jersey. Instruction shall be adapted to the understanding of students at different grade levels.

2. Breast Self-Examination (N.J.S.A. 18A:35-5.4) requires instruction on breast self-examination. The Board of Education shall operate an educational program for students in grades seven through twelve with instruction in breast self-examination. The instruction shall take place as part of the district’s implementation of the NJSLS in Comprehensive Health and Physical Education and the comprehensive health and physical education curriculum framework shall provide school districts with sample activities that may be used to support implementation of the instructional requirement.

is encouraged to establish bullying prevention programs and other initiatives involving school staff, students, administrators, volunteers, parents, law enforcement, and community members.

To the extent funds are appropriated for these purposes, the school district shall: (1) provide training on the school district’s Harassment, Intimidation, or Bullying Policy to school employees and volunteers who have significant contact with students; and (2) develop a process for discussing the district’s Harassment, Intimidation, or Bullying Policy with students. Information regarding the school district Policy against harassment, intimidation, or bullying shall be incorporated into the school’s employee training program.

5. Dating Violence Education (N.J.S.A. 18A:35-4.23a) requires instruction regarding dating violence in grades seven through twelve. The school district shall incorporate dating violence education that is age appropriate into the health education curriculum as part of the district’s implementation of the NJSLS in Comprehensive Health and Physical Education for students in grades seven through twelve. The dating violence education shall include, but not be limited to, information on the definition of dating violence, recognizing dating violence warning signs, and the characteristics of healthy relationships.

6. Domestic Violence Education (N.J.S.A. 18A:35-4.23) allows instruction on problems related to domestic violence and child abuse. The Board of Education may include instruction on the problems of domestic violence and child abuse in an appropriate place in the curriculum of elementary school, middle school, and high school students. The instruction shall enable students to understand the psychology and dynamics of family violence, dating violence, and child abuse; the relationship of alcohol and drug use to such violence and abuse; the relationship of animal
cruelty to such violence and abuse; and to learn methods of nonviolent problem-solving.

7. Gang Violence Prevention (N.J.S.A. 18A:35-4.26) requires instruction in gang violence prevention for elementary school students. A Board of Education that operates an educational program for elementary school students shall offer instruction in gang violence prevention and in ways to avoid membership in gangs. The instruction shall take place as part of the district’s implementation of the NJSLS in Comprehensive Health and Physical Education and the comprehensive health and physical education curriculum framework shall provide the school district with sample materials that may be used to support implementation of the instructional requirement.

8. Health, Safety, and Physical Education (N.J.S.A. 18A:35) requires that all students in grades one through twelve participate in at least two and one-half hours of health, safety, and physical education each school week. Every student, except Kindergarten students, attending the public schools, insofar as he or she is physically fit and capable of doing so, as determined by the medical inspector, shall take such courses, which shall be a part of the curriculum prescribed for the several grades. The conduct and attainment of the students shall be marked as in other courses or subjects, and the standing of the student in connection therewith shall form a part of the requirements for promotion or graduation. The time devoted to such courses shall aggregate at least two and one-half hours each school week, or proportionately less when holidays fall within the week.

9. Drugs, Alcohol, Tobacco, Controlled Dangerous Substances, and Anabolic Steroids (N.J.S.A. 18A:40A-1) requires instructional programs on drugs, alcohol, anabolic steroids, tobacco, and controlled dangerous substances and the development of curriculum guidelines. Instructional programs on the nature of drugs, alcohol, anabolic steroids, tobacco, and controlled dangerous substances, as defined in Section 2 of P.L. 1970, c.226 (C.24:21-2), and their physiological, psychological, sociological, and legal effects on the individual, the family, and society shall be taught in the public school and in each grade from Kindergarten.
through grade twelve in a manner adapted to the age and understanding of the students.

The programs shall be based upon the curriculum guidelines established by the Commissioner of Education and shall be included in the curriculum for each grade in such a manner as to provide a thorough and comprehensive treatment of the subject.

10. Lyme Disease Prevention (N.J.S.A. 18A:35-5.1) requires the development of Lyme disease curriculum guidelines. The guidelines shall emphasize disease prevention and sensitivity for victims of the disease. The Commissioner of Education shall periodically review and update the guidelines to insure that the curriculum reflects the most current information available.

11. Organ Donation (N.J.S.A. 18A:7F-4.3) requires information relative to organ donation to be given to students in grades nine through twelve. The goals of the instruction shall be to:

   a. Emphasize the benefits of organ and tissue donation to the health and well-being of society generally and to individuals whose lives are saved by organ and tissue donations, so that students will be motivated to make an affirmative decision to register as donors when they become adults.

   b. Fully address myths and misunderstandings regarding organ and tissue donation.

   c. Explain the options available to adults, including the option of designating a decision-maker to make the donation decision on one’s behalf.

   d. Instill an understanding of the consequences when an individual does not make a decision to become an organ donor and does not register or otherwise record a designated decision-maker.

The instruction shall inform students that, beginning five years from the date of enactment of P.L.2008, c.48 (C.26:6-66 et al.), the New Jersey Motor Vehicle Commission will not issue or renew a

PRESENTED TO COMMITTEE FOR FIRST READING, MARCH 2019
New Jersey driver’s license or personal identification card unless a prospective or renewing licensee or card holder makes an acknowledgement regarding the donor decision pursuant to Section 8 of P.L.2008, c.48 (C.39:3-12.4). The Commissioner of Education, through the non-public school liaison in the Department of Education, shall make any related instructional materials available to private schools educating students in grades nine through twelve, or any combination thereof. Such schools are encouraged to use the instructional materials at the school; however, nothing in N.J.S.A. 18A:7F-4.3 shall be construed to require such schools to use the materials.

12. Sexual Assault Prevention (N.J.S.A. 18A:35-4.3) requires the development of a sexual assault prevention education program. The Department of Education in consultation with the advisory committee shall develop and establish guidelines for the teaching of sexual assault prevention techniques for utilization by local school districts in the establishment of a sexual assault prevention education program. Such program shall be adapted to the age and understanding of the students and shall be emphasized in appropriate places of the curriculum sufficiently for a full and adequate treatment of the subject.

13. Stress Abstinence (N.J.S.A. 18A:35-4.19 through N.J.S.A. 18A:35-4.22), also known as the “AIDS Prevention Act of 1999,” requires sex education programs to stress abstinence. Any sex education that is given as part of any planned course, curriculum, or other instructional program and that is intended to impart information or promote discussion or understanding in regard to human sexual behavior, sexual feelings and sexual values, human sexuality and reproduction, pregnancy avoidance or termination, HIV infection or sexually transmitted diseases, regardless of whether such instruction is described as, or incorporated into, a description of “sex education,” “family life education,” “family health education,” “health education,” “family living,” “health,” “self esteem,” or any other course, curriculum program, or goal of education, and any materials including, but not limited to, handouts, speakers, notes, or audiovisuals presented on school property concerning methods for the prevention of acquired immune deficiency syndrome (HIV/AIDS), other sexually
transmitted diseases, and of avoiding pregnancy, shall stress that abstinence from sexual activity is the only completely reliable means of eliminating the sexual transmission of HIV/AIDS and other sexually transmitted diseases and of avoiding pregnancy.

14. Suicide Prevention (N.J.S.A. 18A:6-111) requires instruction in suicide prevention in public schools. Instruction in suicide prevention shall be provided as part of any continuing education that public school teaching staff members must complete to maintain their certification; and inclusion of suicide prevention awareness shall be included in the NJSLS in Comprehensive Health and Physical Education.

15. Cardiopulmonary Resuscitation (N.J.S.A. 18A:35-4.28 and 18A:35-4.29) requires instruction in the use of automated external defibrillator for students. Instruction shall be provided in cardiopulmonary resuscitation and the use of an automated external defibrillator to each student in a public school that includes grades nine through twelve prior to graduation as part of the district’s implementation of the NJSLS in Comprehensive Health and Physical Education.

The instruction provided shall be modeled from an instructional program established by the American Heart Association, American Red Cross, or other nationally recognized association and shall include a hands-on learning component.

17. Other Statutory or Administrative Codes. The Board will incorporate into its health and physical education curriculum any other requirements of the New Jersey Department of Education’s NJSLS in Comprehensive Health and Physical Education.

PRESENTED TO COMMITTEE FOR FIRST READING, MARCH 2019
In accordance with the provisions of N.J.S.A. 18A:35-4.7, any student whose parent presents to the Principal a signed statement that any part of the instruction in health, family life, or sex education is in conflict with his/her conscience or sincerely held moral or religious beliefs shall be excused from that portion of the course where such instruction is being given and no penalties as to credit or graduation shall result.

A copy of the NJSLS for Comprehensive Health and Physical Education and all related curriculum/course guides and instructional material shall be available for public inspection in each school.

In accordance with N.J.S.A. 18A:35-4.31, the Board of Education shall provide a daily recess period of at least twenty minutes for students in grades Kindergarten through five. A recess period is not required on a school day in which the day is substantially shortened due to a delayed opening or early dismissal. The recess period shall be outdoors, if feasible. A student shall not be denied recess for any reason, except as a consequence of a violation of the school district’s Code of Student Conduct, including a harassment, intimidation, or bullying (HIB) investigation pursuant to N.J.S.A. 18A:37-13 et seq. Students may not be denied recess more than twice per week for a violation of the Code of Student Conduct or HIB investigation and these students shall be provided restorative justice activities during the recess period. Restorative justice activities mean activities designed to improve the socioemotional and behavioral responses of students through the use of more appropriate and less punitive interventions thereby establishing a more supportive and inclusive school culture. The student’s recess period should be scheduled in a manner that does not interfere with the implementation of a student’s Individualized Education Program (IEP). School staff may deny recess for a student on the advice of a medical professional, school nurse, or the provisions of a student’s IEP and/or 504 Plan.
The Board of Education adopts this Policy as a measure to protect the safety, health and welfare of pupils participating in school-sponsored interscholastic athletic programs. The Board believes practice and pre-season heat-acclimation guidelines for student-athletes will minimize injury and enhance the student-athlete’s health, performance, and well-being.

Therefore, the Superintendent of Schools or designee shall oversee the development and approval of a practice and pre-season heat-acclimation procedure and ensure the implementation of the procedure for students participating in all school-sponsored athletic programs and extra-curricular activities during warm weather months.

For the purposes of this Policy, “practice time,” means the time a player engages in physical activity. Warm-up, stretching, conditioning, weight training, and “cool-down” periods shall be calculated in practice time.

For the purposes of this Policy “walk-through” means practice time where no protective equipment or strenuous activity is permitted and only balls and field markers (cones) may be used.

The first five days of the Board approved pre-season practice shall consist of no more than three hours of practice time. This three-hour practice time during the first five days may be divided into multiple sessions, but total practice time shall not exceed three hours. Full protective gear required for any athletic program may only be worn by student-athletes on the third day of practice and thereafter. Activities during the first two days of practice will be limited to those activities where full protective gear is not needed or required. Protective headgear may be worn on the first two days. Full equipment shall not be worn for any practice that is held before the NJSIAA official start of practice date.

A student-athlete shall not be permitted to participate in a scrimmage for any sport until he/she has completed six complete days of practice.

An athletic team may not practice for more than six consecutive days and one twenty-four hour rest period must be included within a seven-day period. After the fifth day of practice, the maximum allotted time per day for practice shall not exceed five hours. The five-hour practice time may be divided into multiple sessions but total practice time in

PRESENTED TO COMMITTEE FOR FIRST READING, MARCH 2019
any day shall not exceed five hours. A five-hour practice day may not be followed by a practice day greater than three hours. Therefore, practice days may follow a 3-5-3-5 format. A minimum of a three-hour recovery period shall be provided after any session of greater than two hours in length and a three-hour recovery period should be provided before a walk-through.

The Superintendent of Schools may reduce the practice times in this Policy in the event the weather and/or temperature warrants such action. This Policy shall be approved by the school district’s physician prior to Board of Education approval.

New Jersey State Interscholastic Athletic Association Pre-Season Heat-Acclimation Guidelines

Adopted: 28 June 2016
2610 EDUCATIONAL PROGRAM EVALUATION (M)

The Board of Education directs the Superintendent to develop and implement a systematic plan for the continuous evaluation of the educational program against the educational goals established by this Board. The Superintendent shall employ such tests and methods that will ensure decision making is data driven and a variety of sources of data are used to analyze and monitor student achievement and progress, as well as evaluate school programs. Wherever possible, the assessment program shall follow evaluation procedures set forth in the course guides.

The Superintendent shall maintain a calendar of assessment activities and shall make periodic evaluation reports to the Board that may be used to evaluate the progress of students and the effectiveness of staff members. The Superintendent shall use multiple (more than two) sources of data to monitor student achievement and the progress of students. The Superintendent shall also use multiple (more than two) sources of data to evaluate the effectiveness of programs, initiatives, and strategies.

The Board will annually make available to the public the collective progress of students toward the goals of the district. The Board will annually, prior to the end of the school year and in conjunction with appropriate members of the administrative staff, conduct a review of the educational progress of the district, assess district and student needs, and establish long range and short range objectives for the educational program. The Board's annual report will be submitted to the Commissioner of Education as required.

The Superintendent shall annually recommend improvements in the educational program based on the Board's evaluation of the district's program. The Board reserves the right to employ experts from outside the school district to serve in the evaluation process.

PRESENTED TO COMMITTEE FOR FIRST READING, MARCH 2019
COMMERCIAL DRIVER CONTROLLED SUBSTANCES AND ALCOHOL USE TESTING (M)

4219 COMMERCIAL DRIVER CONTROLLED SUBSTANCES AND ALCOHOL USE TESTING (M)

M

The Board of Education is committed to a safe, efficient and alcohol and drug-free workplace, that protects the district's pupils -- as well as the health and safety of its employees and the general public. The Board requires all employees of the Board performing any safety-sensitive function to be free of drugs and alcohol and will test those employees who operate a commercial motor vehicle in accordance with 49 CFR 382 et seq. and 49 CFR 40 et seq. For the purpose of this Policy “employee” means a person required to have a Commercial Driver’s License (CDL) in the performance of their job responsibilities. Safety-sensitive functions as defined by 49 CFR 382.107 means any time from the time an employee begins to work or is required to be in readiness to work until the time the employee is relieved from work and all responsibility for performing work. Safety-sensitive functions shall include:

1. All time at the terminal, facility, other property, or on any public property, waiting to be dispatched, unless relieved from duty;

2. All time inspecting equipment as required by Federal law or otherwise inspecting, servicing, or conditioning any commercial motor vehicle, at any time;

3. All time spent at the driving controls of a commercial motor vehicle in operation;

4. All time, other than driving time, in or upon the commercial motor vehicle except time spent resting in an area defined as a sleeping berth;

5. All time loading or unloading a vehicle, supervising, or assisting in the loading or unloading, attending a vehicle being loaded or unloaded, remaining in readiness to operate the vehicle, or in giving or receiving receipts for shipments loaded and unloaded; and

PRESENTED TO COMMITTEE FOR FIRST READING, MARCH 2019
COMMERCIAL DRIVER CONTROLLED SUBSTANCES AND ALCOHOL USE TESTING (M)

6. All time repairing, obtaining assistance, or remaining in attendance upon a disabled vehicle.

The Omnibus Transportation Employee Testing Act of 1991 requires all operators of commercial motor vehicles subject to the CDL requirements to be tested for controlled substances and alcohol. Federal regulations of the U.S. Department of Transportation require that any employee using a CDL be required to submit to alcohol and controlled substance testing in accordance with 49 CFR 40.

The Board designates the Assistant Superintendent for Business/Business Administrator as the Designated Employer Representative (DER) of the Board of Education. The DER should receive information from the contracted bus company that they are in compliance with all Federal Federal law. In the event the Board contracts with a service provider for transportation, the Board designee will ensure all transportation contractors comply with the drug and alcohol testing requirements of Policy 4219 pursuant to 49 CFR 382 et seq. and 49 CFR 40 et seq.

Adopted April 26, 2016

PRESENTED TO COMMITTEE FOR FIRST READING, MARCH 2019
5337 SERVICE ANIMALS

In compliance with Title II of the Americans with Disabilities Act (ADA) as amended by the ADA Amendments Act of 2008, it is the Policy of the Board to permit use of a service animal by an individual with a disability in all areas of the district where the public is normally permitted: in district buildings; on district property; and on vehicles owned, leased, or controlled by the district. (28 CFR §35.136)

A. Definitions

2. “Designated administrator” means Principal or person designated by the Principal to coordinate these activities.

3. “District” means this school district.

4. “Handler” means the animal’s owner who is an individual with a disability or a person, such as a trainer, assisting the owner with control of the service animal.

5. “Service animal” means a dog individually trained to do work or perform a specific job or task for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability. (28 CFR §36.104)

a. Other species of animals, whether wild or domestic, trained or untrained, are not service animals for the purposes of this definition.

b. The work or tasks performed by a service animal must be directly related to the individual's disability (e.g. navigation, alerting physical support and assistance, preventing or interrupting impulsive or destructive behaviors).

PRESENTED TO COMMITTEE FOR FIRST READING, MARCH 2019
c. Work or tasks for the purposes of this definition do not include the provision of emotional support, well-being, comfort, therapy, companionship, or crime deterrence.

B. Generally

1. The district shall permit the use of a service animal by an individual with a disability unless:

   a. The animal is out of control and the animal’s handler does not take effective action to control it;

   b. The animal is not housebroken.

2. A service animal shall have a harness, leash, or other tether, unless either the handler is unable because of a disability to use a harness, leash or other tether, or the use of a harness, leash, or other tether would interfere with the service animal’s safe, effective performance of work or tasks, in which case the service animal must be otherwise under the handler’s control (e.g. voice control, signals, or other effective means). (28 CFR §35.136(d)).

3. If an animal is properly excluded, the district shall give the individual with a disability the opportunity to participate in the service, program, or activity without having the service animal on the premises. (28 CFR §35.136(b))

4. If there are places in the district where it is determined to be unsafe for a handler and service animal, reasonable accommodations will be provided to assure the individual with a disability has equal access to the activity.

5. Unless the need for a service animal is readily apparent, the individual with a disability or his/her parent will be required to provide the district with information that:

   a. The service animal is required because of a disability; and

   b. What work or task the animal has been trained to perform.
6. The district may not require documentation, including proof that the animal has been certified, trained, or licensed as a service animal; nor that the dog demonstrates its ability to perform the work or task. (28 CFR §35.136(f))

7. Individuals with a disability who have service animals are not exempt from local animal control or public health requirements.

8. Service animals must be licensed and registered in accordance with State and local laws.

C. Delegation of Responsibility

1. The district is not responsible for the care or supervision of a service animal, in accordance with §35.136(e).
   a. The district is not responsible to pay for or provide a handler to aid the individual with a disability in the control of the service animal.
   b. The district is responsible to provide assistance to an individual with a disability in performing the tasks required of the individual for the care and maintenance of the service animal.

2. If the district normally charges individuals for damage they cause, an individual with a disability may be charged for damage caused by his or her service animal. (28 CFR §35.136(h))

3. The district will designate relief areas for the service animal which will be included in mobility training and orientation of students and animals new to the school.

D. Notification and Responsibilities

1. In the event a service animal will be introduced as part of the school community, the designated administrator will develop a comprehensive implementation plan prior to introduction of the service animal into the school to include:

PRESENTED TO COMMITTEE FOR FIRST READING, MARCH 2019
a. Notification to parents of students who may be in contact with the service animal;

b. Appropriate accommodations:

(1) For students who are allergic to the service animal; and/or

(2) For students who have fears regarding the service animal.

c. Appropriate etiquette regarding service animals to include:

(1) Never pet a service animal while it is working;

(2) Never feed a working service animal;

(3) Do not deliberately startle, tease, or taunt a service animal;

(4) Do not hesitate to ask the handler if he or she would like assistance regarding directions for navigating or the facility.

2. The use of a service animal introduced as part of the school community will require inclusion into the student’s Individualized Education Plan (IEP) or the student’s Section 504 Accommodation Plan.

3. The district may request, but cannot require, the owner of a service animal introduced as part of the school community and, as included in the student’s IEP or Section 504 Accommodation Plan, maintain liability insurance for the service animal. The School Business Administrator/Board Secretary will ensure the school district has appropriate insurance in the event a service animal is introduced as part of the school community.

E. Miniature Horses

1. Miniature horses, although not included in the Act under the definition of “service animal,” may only be permitted if individually trained to do work
or perform tasks for the benefit of the individual with a disability and if they meet the assessment factors outlined in 3. below. (28 CFR §35.136(i))

2. Ponies and full size horses are not considered miniature horses.

3. Assessment factors to determine whether the district can reasonably modify its policies, practices, and procedures to allow for the use of miniature horses on its property, facilities, or vehicles include:

   a. Type, size, and weight of the miniature horse and whether the facility can accommodate those features;

   b. Whether the handler has sufficient control of the miniature horse;

   c. Whether the miniature horse is housebroken; and

   d. Whether the miniature horse’s presence compromises legitimate safety requirements necessary for safe operation.

4. All requirements for the use of service animals also apply to the use of miniature horses.

28 CFR §35.136
28 CFR §36.104

Adopted: 28 June 2016
5756 TRANSGENDER STUDENTS

The Board of Education is committed to providing a safe, supportive, and inclusive learning environment for all students. The New Jersey Law Against Discrimination (NJLAD), N.J.S.A. 10:5-12(11)(f), generally makes it unlawful for schools to subject individuals to differential treatment based on gender identity or expression. Title IX of the Education Amendments of 1972 (“Title IX”) specifically prohibits discrimination on the basis of sex in Federally-funded education programs and activities [20 U.S.C. § 1681(a)].

N.J.S.A. 18A:36-41 directs the Commissioner of Education to establish guidelines outlined in this Policy to provide direction for schools in addressing common issues concerning the needs of transgender students, and to assist schools in establishing policies and procedures that ensure a supportive and nondiscriminatory environment for transgender students.

Definitions/Terms

A safe and supportive environment within a school begins with understanding and respect. The Board believes students, teachers, and administrators should be provided with common terminology associated with gender identity. The terms listed below are commonly used by advocacy and human rights groups, however students may prefer other terms to describe their gender identity, appearance, or behavior. It is recommended school personnel discuss with the student the terminology and pronouns each student has chosen.

“Gender identity” means a person’s internal, deeply held sense of gender. All people have a gender identity, not just transgender people. For transgender people, the individual’s internal gender identity is not the same as the gender assigned at birth.

“Gender expression” means external manifestations of gender, expressed through a person’s name, pronouns, clothing, haircut, behavior, voice, and/or body characteristics. Society identifies these cues as masculine and feminine, although what is considered masculine or feminine changes over time and varies by culture.

PRESENTED TO COMMITTEE FOR FIRST READING, MARCH 2019
“Assigned sex at birth (ASAB)” refers to the biological sex designation recorded on a person’s birth certificate upon the initial issuance of that certificate, should such a record be provided at birth.

“Gender assigned at birth” refers to the gender a child is assigned at birth or assumed to be, based on their biological sex assigned at birth.

“Sexual orientation” describes a person’s enduring physical, romantic, and/or emotional attraction to another person. Gender identity and sexual orientation are not the same. A transgender person may be straight, lesbian, gay, bisexual, or asexual. For example, a person who transitions from male to female and is attracted solely to men may identify as a straight woman.

“Transgender” is a term for an individual whose gender identity and/or gender expression differs from those typically associated with the sex and gender assigned at birth.

“Transition” is the process by which a transgender person recognizes that their authentic gender identity is not the same as the gender assigned at birth, and develops a more affirming gender expression that feels authentic. Some individuals socially transition, for example, through dress, use of names and/or pronouns. Some individuals may undergo physical transition, which might include hormone treatments and surgery. School district personnel should avoid the phrase “sex change,” as it is an inaccurate description of the transition process; the process is more accurately described as “gender-confirming.”

“LGBTQ” is an acronym for “lesbian, gay, bisexual, transgender, and queer/questioning.”

“Gender nonconforming” describes a person whose gender expression does not conform to the gender expectations of their family or community. Gender nonconformity is not necessarily an indication that a youth is transgender; many non-transgender youth do not conform to stereotypical expectations.

“Gender expansive, Gender diverse, Gender fluid, Gender non-binary, A gender, Gender queer” are terms that convey a wider, more flexible range of gender identity and/or expression than typically associated with the binary gender system. For example, students who identify as gender queer or gender fluid might not identify as boys or girls; for these students, the non-binary gender identity functions as the student’s gender identity.

PRESENTED TO COMMITTEE FOR FIRST READING, MARCH 2019
“Cisgender” refers to individuals whose gender identity, expression, or behavior conforms with those typically associated with their sex assigned at birth.

STUDENT CENTERED APPROACH

The school district shall accept a student’s asserted gender identity; parental consent is not required. A student need not meet any threshold diagnosis or treatment requirements to have his or her gender identity recognized and respected by the school district, school, or school staff members. In addition, a legal or court-ordered name change is not required. There is no affirmative duty for any school district staff member to notify a student’s parent of the student’s gender identity or expression.

There may be instances where a parent of a minor student disagrees with the student regarding the name and pronoun to be used at school and in the student’s education records. In the event a parent objects to the minor student’s name change request, the Superintendent or designee should consult the Board Attorney regarding the minor student’s civil rights and protections under the NJLAD. School staff members should continue to refer to the student in accordance with the student’s chosen name and pronoun at school and may consider providing resource information regarding family counseling and support services outside of the school district.

School districts should be mindful of disputes between minor students and parents concerning the student’s gender identity or expression. Many support resources are available through advocacy groups and resources from the New Jersey Department of Children and Families and New Jersey Department of Education’s “Child Abuse, Neglect, and Missing Children” webpage.

The Principal or designee should have an open, but confidential discussion with the student to ascertain the student’s preference on matters such as chosen name, chosen pronoun to use, and parental communications. A transgender student shall be addressed at school by the name and pronoun chosen by the student, regardless of whether a legal name change or change in official school records has occurred. The school shall issue school documentation for a transgender student, such as student identification cards, in the name chosen by the student. A transgender student shall be allowed to dress in accordance with the student’s gender identity.

The Principal or designee should also discuss with the student, and any other individuals at the student’s request, the risks associated with the student’s transgender status being inadvertently disclosed. For example, the Principal or designee should inform the student the transgender status may be revealed due to other students’ discussions at home. The Principal or designee should work with

PRESENTED TO COMMITTEE FOR FIRST READING, MARCH 2019
the transgender student to ensure awareness of activities and events that may inadvertantly disclose the transgender student’s status.

Safe and Supportive Environment

The Board developed and adopted this Policy to ensure that its schools provide a safe and supportive learning environment that is free from discrimination and harassment for transgender students, including students going through a gender transition. Gender-based policies, rules, and practices can have the effect of marginalizing, stigmatizing, and excluding students, whether they are gender nonconforming or not.

The Superintendent or designee shall review and update existing policies and procedures, including those regarding classroom activities, school ceremonies, school photographs, and dress codes, to verify transgender students are not excluded. In addition, the school district shall take the following steps to establish and maintain a nondiscriminatory environment for all students, including transgender and transitioning students:

• The school district must comply with N.J.S.A. 18A:37-15 and N.J.A.C. 6A:16-7.7, which prohibit harassment, intimidation, and bullying. The Board is required to develop, adopt, and implement a Policy in accordance with N.J.S.A. 18A:37-15 and N.J.A.C. 6A:16-7.7 that prohibits harassment, intimidation, or bullying on school property, at a school-sponsored function, or on a school bus. If harassment, intimidation, or bullying based on gender identity creates a hostile environment, the school must take prompt and effective steps to end the harassment, intimidation, or bullying, prevent its recurrence, and, as appropriate, remedy its effects.

• The Superintendent or designee should ensure training is provided to school staff members on sensitivity and respect towards transgender students.

• Social and Emotional Learning (SEL) concepts should be incorporated into school culture and curricula.

• The school district may seek a variety of professionals, including counselors and school psychologists, to provide emotional supports for all students who demonstrate a need. The Superintendent or designee shall ensure school counselors are knowledgeable regarding issues and concerns relevant to transgender students,

PRESENTED TO COMMITTEE FOR FIRST READING, MARCH 2019
students facing other gender identity issues, or students who may be transitioning.

STUDENTS
5756/page 5 of 9
Transgender Students

- Student dress codes should not be enforced more strictly for transgender and gender nonconforming students than for other students.

- The school district shall honor and recognize a student’s asserted gender identity, and shall not require any documentation or evidence in any form, including diagnosis, treatment, or legal name change.

- A school’s obligation to ensure nondiscrimination on the basis of gender identity requires schools to provide transgender students equal access to educational programs and activities, even in circumstances in which other students, parents, or community members raise objections or concerns.

Confidentiality and Privacy

School staff members may not disclose information that may reveal a student’s transgender status except as allowed by law. The Principal or designee is advised to work with the student to create an appropriate confidentiality plan regarding the student’s transgender or transitioning status.

The school district shall keep confidential a current, new, or prospective student’s transgender status. Schools should address the student using a chosen name and the student’s birth name should be kept confidential by school and school staff members.

Due to a specific and compelling need, such as the health and safety of a student or an incident of bias-related crime, the school district may be obligated to disclose a student’s status. In this event, the Principal or designee should inform the student the school or school district intends to disclose the student’s transgender status for the student’s protection and well-being. Prior to disclosure, the student should be given the opportunity to personally disclose that information. The school district should make every effort to ensure any disclosure is made in a way that reduces or eliminates the risk of re-disclosure and protects the transgender student from further harassment. Those measures may

PRESENTED TO COMMITTEE FOR FIRST READING, MARCH 2019
include the facilitation of counseling for the student and the student’s family to facilitate the family’s acceptance and support of the student’s transgender status.

STUDENTS
5756/page 6 of 9
Transgender Students

During a harassment, intimidation, or bullying investigation the school district is obligated to develop a procedure to report, verbally and in writing, an act of harassment, intimidation, and bullying committed by an adult or youth against a student, pursuant to N.J.A.C. 6A:16-7.7(a)2viii. In this instance, the Principal or designee should inform the student of the school’s obligation to report the findings of the harassment, intimidation, and bullying investigation pursuant to N.J.S.A. 18A:37-15(d), which permits the parents of the students who are parties to the investigation to receive information about the investigation in accordance with Federal and State law and regulation. Under harassment, intimidation, and bullying legal requirements, parents are entitled to know the nature of the investigation; whether the district found evidence of harassment, intimidation, or bullying; or whether disciplinary action was imposed or services provided to address the incident of harassment, intimidation, or bullying.

The Principal or designee shall take into account the circumstances of the incident when providing notification to parents of all students involved in the reported harassment, intimidation, or bullying incident and when conveying the nature of the incident, including the actual or perceived protected category motivating the alleged offense, pursuant to N.J.A.C. 6A:16-7.7(a)2viii(2).

Disclosure of personally identifiable information from a student’s education record to other school officials within the school district, whom the school district has determined have a legitimate educational interest in the information, may be permissible under Family Educational Rights and Privacy Act (FERPA) (34 C.F.R. § 99.31(a)(1)). The school district shall make a concerted effort to ensure school officials obtain access to only those education records in which they have legitimate educational interests.

School Records

If a student has expressed a preference to be called by a name other than their birth name, permanent student records containing the student’s birth name should be kept in a separate, confidential file. This file should only be shared with appropriate school staff members after consultation with a student. A separate file containing records bearing the student’s chosen name may also be kept. If the student has previously been known at school or in school records by a birth name, the Principal or designee should direct school staff members to use the student’s chosen name and not the student’s birth name.

To ensure consistency among teachers, school administrators, substitute teachers, and other school staff members, every effort should be made to immediately update student education records (for example, attendance records, transcripts, Individualized Education Programs (IEP), etc.) with the student’s chosen name and gender pronouns, consistent with the student’s gender identity and expression, and not circulate records with the student’s birth name, unless directed by the student.

- The school district shall report to the New Jersey Department of Education (NJDOE) through NJ SMART a student’s name or gender based upon that student’s chosen name and corresponding gender identity. Changing the name or gender identity from what was reported in previous years will not affect the reliability of the data reported.
- If the school district changes a student’s name or gender identity, it must also maintain locally a separate record reflecting the student’s legal name and sex assigned at birth until receipt of documentation of a legal change of name or gender.
With respect to gender-segregated classes or athletic activities, including intramural and interscholastic athletics, all students must be allowed to participate in a manner consistent with their gender identity.

The school district shall:

- Provide transgender students with the same opportunities to participate in physical education as other students in accordance with their gender identity;

- Permit a transgender student to participate in gender-segregated school activities in accordance with the student’s gender identity;

- Permit and support the formation of student clubs or programs regarding issues related to lesbian, gay, bisexual, transgender, and queer/questioning (LGBTQ) youth; and

- Offer support in the creation of peer led educational groups.

Use of Facilities

All students are entitled to have access to restrooms, locker rooms, and changing facilities in accordance with their gender identity to allow for involvement in various school programs and activities.

In all cases, the Principal or designee must work with the student and school staff members so all parties are aware of facility policies and understand the student may access the restroom, locker room, and changing facility that corresponds to the student’s gender identity. While some transgender students will want this arrangement, others may be uncomfortable with it. Transgender students who are uncomfortable using a sex-segregated restroom should be provided with a safe and adequate alternative, such as a single “unisex” restroom or the nurse’s restroom. Similarly, some transgender students may be uncomfortable using the changing facilities that correspond to the student’s gender identity. Non-transgender students should also be afforded the option to use a private facility, such as a unisex facility or the nurse’s restroom, should they feel uncomfortable.

- The school district shall allow a transgender student to use a restroom or locker room based on the student’s gender identity.

PRESENTED TO COMMITTEE FOR FIRST READING, MARCH 2019
• Reasonable alternative arrangements shall be made if needed to ensure a student’s safety and comfort. This direction for accommodations should come from the student.

The Superintendent or designee will make available to school staff members a variety of resources regarding professional development opportunities as sourced by the NJDOE as well as developmentally appropriate information for students regarding LGBTQ issues.

The Board adopts this Policy to help school and district administrators take steps to create an inclusive environment in which transgender and gender nonconforming students feel safe and supported, and to ensure each school provides equal educational opportunities for all students, in compliance with N.J.A.C. 6A:7-1.1 et seq.

N.J.A.C. 6A:7-1.1 et seq.; N.J.A.C. 6A:16-7.7
New Jersey Department of Education – October 2018
Transgender Student Guidance for School Districts
7440 SCHOOL DISTRICT SECURITY

The Board of Education believes the buildings and facilities of the school district represent a substantial community investment. The Board directs the development and implementation of a plan for school district security to protect the school community’s investment in the school buildings and facilities.

The school district security program will include: maintenance of facilities that are secure against unwelcome intrusion; protection against fire hazards and faulty equipment; and compliance with safe practices in the use of electrical, plumbing, heating, and other school building equipment. The Board directs close cooperation of district officials with law enforcement, fire officials, and other emergency agencies.

The Superintendent of Schools shall designate a school administrator, or a school employee with expertise in school safety and security as a School Safety Specialist for the district in accordance with the provisions of N.J.S.A. 18A:17-43.3. The School Safety Specialist shall be required to acquire a New Jersey Department of Education School Safety Specialist certification in accordance with the provisions of N.J.S.A. 18A:17-43.2. The School Safety Specialist shall also serve as the school district’s liaison with local law enforcement and national, State, and community agencies and organizations in matters of school safety and security.

Access to school buildings and grounds outside the hours school is in session shall be limited to personnel whose employment requires their presence in the facility. An adequate key control system will be established to limit building access to authorized personnel and guard against the potential of intrusion by unauthorized persons who have obtained access improperly.

Building records and funds shall be kept in a safe place and secured as appropriate and necessary.

Protective devices designed to be used as safeguards against illegal entry and vandalism may be installed when appropriate. The Board may approve the employment of school resource officers, school security officers, and/or law enforcement officers in situations in which special risks are involved.

Adopted: 24 May 2016
A. Definitions

“Access” means authorized access to a school building or school grounds through the use of a Board-approved key control system.

“Key control system” means the use of a key, card, code, or any other means to disengage a locking mechanism to provide entry to a school building or school grounds.

“School buildings” and “school grounds” means and includes land, portions of land, structures, buildings, and vehicles, when used for the provision of academic or extracurricular programs sponsored by the school district or community provider and structures that support these buildings, such as school district wastewater treatment facilities, generating facilities, and other central service facilities including, but not limited to, kitchens and maintenance shops. “School buildings” and “school grounds” also includes athletic stadiums; swimming pools; any associated structures or related equipment tied to such facilities including, but not limited to, grandstands; night field lights; greenhouses; garages; facilities used for non-instructional or non-educational purposes; and any structure, building, or facility used solely for school administration. “School buildings” and “school grounds” also includes other facilities such as playgrounds; and other recreational places owned by local municipalities, private entities, or other individuals during those times when the school district has exclusive use of a portion of such land in accordance with N.J.A.C. 6A:16-1.3 and 6A:26-1.2.

B. Access to School Buildings and School Grounds

1. Access to school buildings and grounds during the school day will be permitted to all students enrolled in the school, all authorized school staff members, and visitors pursuant to Policy and Regulation 9150.

2. Access to school buildings and grounds before and after the school day will be permitted to:

   a. Members of the Board of Education;
b. Administrative and supervisory staff members, teaching staff members, and support staff members assigned to a school building or grounds in the performance of their duties;

c. Other school staff members in the performance of their professional responsibilities;

d. Students involved in interscholastic athletics, co-curricular or extra-curricular activities, and authorized spectators;

e. Members of organizations granted the use of school premises pursuant to Policy and Regulation 7510;

f. Police officers, fire fighters, health inspectors, and other agents of Federal, State, and local government in the performance of their official duties;

g. Members of the public present to attend a public Board of Education or public school-related function; and

h. Others authorized by the Superintendent or designee and/or by Board Policy.

3. All visitors to a school building during a school day will be required to register their presence in the school and comply with the provisions of Policy and Regulation 9150. The school’s registration and sign-in procedures may include the use of a school visitor management system requiring the visitor to present acceptable identification to access the school building.

4. Signs will be conspicuously posted to inform visitors of the requirement to register their presence into the building.

C. Key Control System for Access to School Buildings and Facilities

1. School staff members will be provided access to a school building using the school’s key control system as follows:

   a. Teaching staff members and support staff members will be provided access using the school’s key control system to the school
building and to other facilities on school grounds to which they require access for the performance of their professional duties.

(1) The Building Principal will determine the school staff members who shall be provided access to facilities within the school building and on school grounds.

(2) The Superintendent or designee will determine the district administrators, supervisors, and other staff members who shall be provided access to facilities within the school building and on school grounds.

2. School staff members provided access to a school building or other facilities on school grounds shall be responsible for ensuring their key control system authorization is not shared with another individual without prior approval of the Principal or designee for school staff members, or the Superintendent or designee for district staff members. Staff members are prohibited from permitting their key control system authorization to be used by another person unless prior approval is obtained from the Principal or designee at the building level and Superintendent or designee at the district level or in the event of an emergency.

3. A staff member’s loss of a key, card, or any other device authorizing the staff member access to a school building or a facility on school grounds must be immediately reported to the Principal or Superintendent or designee. The staff member who loses a key, card, or any such access device may be responsible for the replacement cost.

D. Staff Member Responsibilities

1. Staff members should not bring to school valuable personal items that cannot be in the staff member’s personal possession at all times. The Board of Education is not responsible for a staff member’s personal possession in the event the item is lost, stolen, misplaced, damaged, or destroyed.

2. In the event a staff member observes a student has a valuable item in school, the staff member will report it to the Principal or designee. A valuable item may include, but is not limited to, an unusually large amount of money, expensive jewelry or electronic equipment, or any item that is
determined by the Principal or designee to be valuable to a student based on the student’s age.

a. The Principal or designee may contact the student’s parent and request the parent come to school to retrieve the valuable item;

b. The Principal or designee may secure the valuable item and return it to the student at the end of the school day and inform the student and the parent not to bring the valuable item to school in the future; or

c. The Principal or designee will permit the student to maintain the valuable item and inform the student and the parent not to bring the valuable item to school in the future.

d. The Board of Education is not responsible for a student’s personal possession in the event the item is lost, stolen, misplaced, damaged, or destroyed when in the possession of the student.

3. Teaching staff members shall close classroom windows and shut and lock classroom doors when leaving at the end of the school day; shut and lock classroom doors during the school day when the room is not going to be in use after their assignment, and report immediately to the Principal or designee any evidence of tampering or theft.

4. Custodians shall, at the end of the work day, conduct a security check of the building to make certain that all windows are closed and all office, classroom, and building doors are shut and locked, except as such doors may be required to be open for persons with access.

5. Office personnel shall take all reasonable precautions to ensure the security of all school and district records and documents against unauthorized access, deterioration, and destruction.

E. School Safety Specialist

1. The Superintendent of Schools shall designate a school administrator as a School Safety Specialist for the district in accordance with the provisions of N.J.S.A. 18A:17-43.3.
2. The School Safety Specialist shall:
   a. Be responsible for the supervision and oversight for all school safety and security personnel, policies, and procedures in the school district;
   b. Ensure that these policies and procedures are in compliance with State law and regulations; and
   c. Provide the necessary training and resources to school district staff in matters relating to school safety and security.

3. The School Safety Specialist shall also serve as the school district’s liaison with law enforcement and national, State, and community agencies and organizations in matters of school safety and security.

F. Summoning Law Enforcement Authorities

1. Law enforcement authorities will be summoned promptly whenever evidence is discovered that indicates: a crime has been committed on school premises or in the course of staff or student transportation to or from school; a break and entry may have occurred on school grounds; a deadly weapon is on school premises; a breach of the peace has occurred on school premises; for any reason required in the Memorandum of Understanding between the Board of Education and Law Enforcement and in accordance with Policy and Regulation 9320; or for any other reason there is concern about the health, safety, and welfare of persons on school grounds or school property.

2. A call to law enforcement agents will be reported to the Superintendent as soon as possible, along with the reason(s) for which the call was made and the outcome of the incident.

Issued: 24 May 2016
The Board of Education requires all students to participate in a comprehensive, sequential, health and physical education program aligned with the New Jersey Student Learning Standards (NJSLS) that emphasizes the natural interdisciplinary connection between wellness and health and physical education. The primary focus of the NJSLS is the development of knowledge and skills that influence healthy behaviors within the context of self, family, school, and the local and global community. The mission of the NJSLS for comprehensive health and physical education is knowledge of health and physical education concepts and skills to empower students to assume lifelong responsibility to develop physical, social, and emotional wellness.

The NJSLS incorporate New Jersey statutes related to health and well-being of students in New Jersey schools. The following statutes incorporated into the NJSLS include, but are not limited to, the following requirements:

1. Accident and Fire Prevention (N.J.S.A. 18A:6-2) requires instruction in accident and fire prevention. Regular courses of instruction in accident prevention and fire prevention shall be given in every public and private school in New Jersey. Instruction shall be adapted to the understanding of students at different grade levels.

2. Breast Self-Examination (N.J.S.A. 18A:35-5.4) requires instruction on breast self-examination. The Board of Education shall operate an educational program for students in grades seven through twelve with instruction in breast self-examination. The instruction shall take place as part of the district’s implementation of the NJSLS in Comprehensive Health and Physical Education and the comprehensive health and physical education curriculum framework shall provide school districts with sample activities that may be used to support implementation of the instructional requirement.

is encouraged to establish bullying prevention programs and other initiatives involving school staff, students, administrators, volunteers, parents, law enforcement, and community members.

To the extent funds are appropriated for these purposes, the school district shall: (1) provide training on the school district’s Harassment, Intimidation, or Bullying Policy to school employees and volunteers who have significant contact with students; and (2) develop a process for discussing the district’s Harassment, Intimidation, or Bullying Policy with students. Information regarding the school district Policy against harassment, intimidation, or bullying shall be incorporated into the school’s employee training program.

5. Dating Violence Education (N.J.S.A. 18A:35-4.23a) requires instruction regarding dating violence in grades seven through twelve. The school district shall incorporate dating violence education that is age appropriate into the health education curriculum as part of the district’s implementation of the NJSLS in Comprehensive Health and Physical Education for students in grades seven through twelve. The dating violence education shall include, but not be limited to, information on the definition of dating violence, recognizing dating violence warning signs, and the characteristics of healthy relationships.

6. Domestic Violence Education (N.J.S.A. 18A:35-4.23) allows instruction on problems related to domestic violence and child abuse. The Board of Education may include instruction on the problems of domestic violence and child abuse in an appropriate place in the curriculum of elementary school, middle school, and high school students. The instruction shall enable students to understand the psychology and dynamics of family violence, dating violence, and child abuse; the relationship of alcohol and drug use to such violence and abuse; the relationship of animal
cruelty to such violence and abuse; and to learn methods of nonviolent problem-solving.

7. Gang Violence Prevention (N.J.S.A. 18A:35-4.26) requires instruction in gang violence prevention for elementary school students. A Board of Education that operates an educational program for elementary school students shall offer instruction in gang violence prevention and in ways to avoid membership in gangs. The instruction shall take place as part of the district’s implementation of the NJSLS in Comprehensive Health and Physical Education and the comprehensive health and physical education curriculum framework shall provide the school district with sample materials that may be used to support implementation of the instructional requirement.

8. Health, Safety, and Physical Education (N.J.S.A. 18A:35) requires that all students in grades one through twelve participate in at least two and one-half hours of health, safety, and physical education each school week. Every student, except Kindergarten students, attending the public schools, insofar as he or she is physically fit and capable of doing so, as determined by the medical inspector, shall take such courses, which shall be a part of the curriculum prescribed for the several grades. The conduct and attainment of the students shall be marked as in other courses or subjects, and the standing of the student in connection therewith shall form a part of the requirements for promotion or graduation. The time devoted to such courses shall aggregate at least two and one-half hours each school week, or proportionately less when holidays fall within the week.

9. Drugs, Alcohol, Tobacco, Controlled Dangerous Substances, and Anabolic Steroids (N.J.S.A. 18A:40A-1) requires instructional programs on drugs, alcohol, anabolic steroids, tobacco, and controlled dangerous substances and the development of curriculum guidelines. Instructional programs on the nature of drugs, alcohol, anabolic steroids, tobacco, and controlled dangerous substances, as defined in Section 2 of P.L.1970, c.226 (C.24:21-2), and their physiological, psychological, sociological, and legal effects on the individual, the family, and society shall be taught in the public school and in each grade from Kindergarten
through grade twelve in a manner adapted to the age and understanding of the students.

The programs shall be based upon the curriculum guidelines established by the Commissioner of Education and shall be included in the curriculum for each grade in such a manner as to provide a thorough and comprehensive treatment of the subject.

10. Lyme Disease Prevention (N.J.S.A. 18A:35-5.1) requires the development of Lyme disease curriculum guidelines. The guidelines shall emphasize disease prevention and sensitivity for victims of the disease. The Commissioner of Education shall periodically review and update the guidelines to insure that the curriculum reflects the most current information available.

11. Organ Donation (N.J.S.A. 18A:7F-4.3) requires information relative to organ donation to be given to students in grades nine through twelve. The goals of the instruction shall be to:

   a. Emphasize the benefits of organ and tissue donation to the health and well-being of society generally and to individuals whose lives are saved by organ and tissue donations, so that students will be motivated to make an affirmative decision to register as donors when they become adults.

   b. Fully address myths and misunderstandings regarding organ and tissue donation.

   c. Explain the options available to adults, including the option of designating a decision-maker to make the donation decision on one’s behalf.

   d. Instill an understanding of the consequences when an individual does not make a decision to become an organ donor and does not register or otherwise record a designated decision-maker.

The instruction shall inform students that, beginning five years from the date of enactment of P.L.2008, c.48 (C.26:6-66 et al.), the New Jersey Motor Vehicle Commission will not issue or renew a
New Jersey driver’s license or personal identification card unless a prospective or renewing licensee or card holder makes an acknowledgement regarding the donor decision pursuant to Section 8 of P.L.2008, c.48 (C.39:3-12.4). The Commissioner of Education, through the non-public school liaison in the Department of Education, shall make any related instructional materials available to private schools educating students in grades nine through twelve, or any combination thereof. Such schools are encouraged to use the instructional materials at the school; however, nothing in N.J.S.A. 18A:7F-4.3 shall be construed to require such schools to use the materials.

12. Sexual Assault Prevention (N.J.S.A. 18A:35-4.3) requires the development of a sexual assault prevention education program. The Department of Education in consultation with the advisory committee shall develop and establish guidelines for the teaching of sexual assault prevention techniques for utilization by local school districts in the establishment of a sexual assault prevention education program. Such program shall be adapted to the age and understanding of the students and shall be emphasized in appropriate places of the curriculum sufficiently for a full and adequate treatment of the subject.

13. Stress Abstinence (N.J.S.A. 18A:35-4.19 through N.J.S.A. 18A:35-4.22), also known as the “AIDS Prevention Act of 1999,” requires sex education programs to stress abstinence. Any sex education that is given as part of any planned course, curriculum, or other instructional program and that is intended to impart information or promote discussion or understanding in regard to human sexual behavior, sexual feelings and sexual values, human sexuality and reproduction, pregnancy avoidance or termination, HIV infection or sexually transmitted diseases, regardless of whether such instruction is described as, or incorporated into, a description of “sex education,” “family life education,” “family health education,” “health education,” “family living,” “health,” “self esteem,” or any other course, curriculum program, or goal of education, and any materials including, but not limited to, handouts, speakers, notes, or audiovisuals presented on school property concerning methods for the prevention of acquired immune deficiency syndrome (HIV/AIDS), other sexually
transmitted diseases, and of avoiding pregnancy, shall stress that
abstinence from sexual activity is the only completely reliable
means of eliminating the sexual transmission of HIV/AIDS and
other sexually transmitted diseases and of avoiding pregnancy.

suicide prevention in public schools. Instruction in suicide
prevention shall be provided as part of any continuing education
that public school teaching staff members must complete to
maintain their certification; and inclusion of suicide prevention
awareness shall be included in the NJSLS in Comprehensive
Health and Physical Education.

18A:35-4.29) requires instruction in the use of automated external
defibrillator for students. Instruction shall be provided in
cardiopulmonary resuscitation and the use of an automated
external defibrillator to each student in a public school that
includes grades nine through twelve prior to graduation as part of
the district’s implementation of the NJSLS in Comprehensive
Health and Physical Education.

The instruction provided shall be modeled from an instructional
program established by the American Heart Association, American
Red Cross, or other nationally recognized association and shall
include a hands-on learning component.

16. Sexually Explicit Images through Electronic Means
(N.J.S.A. 18A:35-4.32 and 4.33) requires instruction, once during
middle school, on the social, emotional, and legal consequences
distributing and soliciting sexually explicit images through
electronic means.

17. Other Statutory or Administrative Codes. The Board will
incorporate into its health and physical education curriculum any
other requirements of the New Jersey Department of Education’s
NJSLS in Comprehensive Health and Physical Education.
In accordance with the provisions of N.J.S.A. 18A:35-4.7, any student whose parent presents to the Principal a signed statement that any part of the instruction in health, family life, or sex education is in conflict with his/her conscience or sincerely held moral or religious beliefs shall be excused from that portion of the course where such instruction is being given and no penalties as to credit or graduation shall result.

A copy of the NJSLS for Comprehensive Health and Physical Education and all related curriculum/course guides and instructional material shall be available for public inspection in each school.

In accordance with N.J.S.A. 18A:35-4.31, the Board of Education shall provide a daily recess period of at least twenty minutes for students in grades Kindergarten through five. A recess period is not required on a school day in which the day is substantially shortened due to a delayed opening or early dismissal. The recess period shall be outdoors, if feasible. A student shall not be denied recess for any reason, except as a consequence of a violation of the school district’s Code of Student Conduct, including a harassment, intimidation, or bullying (HIB) investigation pursuant to N.J.S.A. 18A:37-13 et seq. Students may not be denied recess more than twice per week for a violation of the Code of Student Conduct or HIB investigation and these students shall be provided restorative justice activities during the recess period. Restorative justice activities mean activities designed to improve the socioemotional and behavioral responses of students through the use of more appropriate and less punitive interventions thereby establishing a more supportive and inclusive school culture. The student’s recess period should be scheduled in a manner that does not interfere with the implementation of a student’s Individualized Education Program (IEP). School staff may deny recess for a student on the advice of a medical professional, school nurse, or the provisions of a student’s IEP and/or 504 Plan.
PRACTICE AND PRE-SEASON HEAT-ACCLIMATION FOR INTERSCHOLASTIC ATHLETICS

2431.3 PRACTICE AND PRE-SEASON HEAT-ACCLIMATION FOR SCHOOL-SPONSORED ATHLETICS AND EXTRA-CURRICULAR ACTIVITIES

The Board of Education adopts this Policy as a measure to protect the safety, health and welfare of pupils participating in school-sponsored interscholastic athletic programs. The Board believes practice and pre-season heat-acclimation guidelines for student-athletes will minimize injury and enhance the student-athlete's health, performance, and well-being.

Therefore, the Superintendent of Schools or designee shall oversee the development and approval of a practice and pre-season heat-acclimation procedure and ensure the implementation of the procedure for students participating in all school-sponsored athletic programs and extra-curricular activities during warm weather months.

For the purposes of this Policy, “practice time,” means the time a player engages in physical activity. Warm-up, stretching, conditioning, weight training, and “cool-down” periods shall be calculated in practice time.

For the purposes of this Policy “walk-through” means practice time where no protective equipment or strenuous activity is permitted and only balls and field markers (cones) may be used.

The first five days of the Board approved pre-season practice shall consist of no more than three hours of practice time. This three-hour practice time during the first five days may be divided into multiple sessions, but total practice time shall not exceed three hours. Full protective gear required for any athletic program may only be worn by student-athletes on the third day of practice and thereafter. Activities during the first two days of practice will be limited to those activities where full protective gear is not needed or required. Protective headgear may be worn on the first two days. Full equipment shall not be worn for any practice that is held before the NJSIAA official start of practice date.

A student-athlete shall not be permitted to participate in a scrimmage for any sport until he/she has completed six complete days of practice.

An athletic team may not practice for more than six consecutive days and one twenty-four hour rest period must be included within a seven-day period. After the fifth day of practice, the maximum allotted time per day for practice shall not exceed five hours. The five-hour practice time may be divided into multiple sessions but total practice time in

PRESENTED TO COMMITTEE FOR FIRST READING, MARCH 2019
any day shall not exceed five hours. A five-hour practice day may not be followed by a practice day greater than three hours. Therefore, practice days may follow a 3-5-3-5 format. A minimum of a three-hour recovery period shall be provided after any session of greater than two hours in length and a three-hour recovery period should be provided before a walk-through.

The Superintendent of Schools may reduce the practice times in this Policy in the event the weather and/or temperature warrants such action. This Policy shall be approved by the school district’s physician prior to Board of Education approval.

New Jersey State Interscholastic Athletic Association Pre-Season Heat-Acclimation Guidelines

Adopted: 28 June 2016
2610 EDUCATIONAL PROGRAM EVALUATION (M)

M

The Board of Education directs the Superintendent to develop and implement a systematic plan for the continuous evaluation of the educational program against the educational goals established by this Board. The Superintendent shall employ such tests and methods that will ensure decision making is data driven and a variety of sources of data are used to analyze and monitor student achievement and progress, as well as evaluate school programs. Wherever possible, the assessment program shall follow evaluation procedures set forth in the course guides.

The Superintendent shall maintain a calendar of assessment activities and shall make periodic evaluation reports to the Board that may be used to evaluate the progress of students and the effectiveness of staff members. The Superintendent shall use multiple (more than two) sources of data to monitor student achievement and the progress of students. The Superintendent shall also use multiple (more than two) sources of data to evaluate the effectiveness of programs, initiatives, and strategies.

The Board will annually make available to the public the collective progress of students toward the goals of the district. The Board will annually, prior to the end of the school year and in conjunction with appropriate members of the administrative staff, conduct a review of the educational progress of the district, assess district and student needs, and establish long range and short range objectives for the educational program. The Board's annual report will be submitted to the Commissioner of Education as required.

The Superintendent shall annually recommend improvements in the educational program based on the Board's evaluation of the district's program. The Board reserves the right to employ experts from outside the school district to serve in the evaluation process.

N.J.A.C. 6A:8-4.1 et seq.
N.J.A.C. 6A:19-2.6

PRESENTED TO COMMITTEE FOR FIRST READING, MARCH 2019
EDUCATIONAL PROGRAM EVALUATION (M)

Adopted: 28 June 2016
The Board of Education is committed to a safe, efficient and alcohol and drug-free workplace, that protects the district's pupils -- as well as the health and safety of its employees and the general public. The Board requires all employees of the Board performing any safety-sensitive function to be free of drugs and alcohol and will test those employees who operate a commercial motor vehicle in accordance with 49 CFR 382 et seq. and 49 CFR 40 et seq. For the purpose of this Policy “employee” means a person required to have a Commercial Driver’s License (CDL) in the performance of their job responsibilities. Safety-sensitive functions as defined by 49 CFR 382.107 means any time from the time an employee driver begins to work or is required to be in readiness to work until the time the employee is relieved from work and all responsibility for performing work. Safety-sensitive functions shall include:

1. All time at the terminal, facility, other property, or on any public property, waiting to be dispatched, unless relieved from duty;

2. All time inspecting equipment as required by Federal law or otherwise inspecting, servicing, or conditioning any commercial motor vehicle, at any time;

3. All time spent at the driving controls of a commercial motor vehicle in operation;

4. All time, other than driving time, in or upon the commercial motor vehicle except time spent resting in an area defined as a sleeping berth;

5. All time loading or unloading a vehicle, supervising, or assisting in the loading or unloading, attending a vehicle being loaded or unloaded, remaining in readiness to operate the vehicle, or in giving or receiving receipts for shipments loaded and unloaded; and
6. All time repairing, obtaining assistance, or remaining in attendance upon a disabled vehicle.

The Omnibus Transportation Employee Testing Act of 1991 requires all operators of commercial motor vehicles subject to the CDL requirements to be tested for controlled substances and alcohol. Federal regulations of the U.S. Department of Transportation require that any employee using a CDL be required to submit to alcohol and controlled substance testing in accordance with 49 CFR 40.

The Board designates the Assistant Superintendent for Business/Business Administrator as the Designated Employer Representative (DER) of the Board of Education. The DER should receive information from the contracted bus company that they are in compliance with all Federal law. In the event the Board contracts with a service provider for transportation, the Board designee will ensure all transportation contractors comply with the drug and alcohol testing requirements of Policy 4219 pursuant to 49 CFR 382 et seq. and 49 CFR 40 et seq.

Adopted April 26, 2016
5337 SERVICE ANIMALS

In compliance with Title II of the Americans with Disabilities Act (ADA) as amended by the ADA Amendments Act of 2008, it is the Policy of the Board to permit use of a service animal by an individual with a disability in all areas of the district where the public is normally permitted: in district buildings; on district property; and on vehicles owned, leased, or controlled by the district. (28 CFR §35.136)

A. Definitions

2. “Designated administrator” means Principal or person designated by the Principal to coordinate these activities.

3. “District” means this school district.

4. “Handler” means the animal’s owner who is an individual with a disability or a person, such as a trainer, assisting the owner with control of the service animal.

5. “Service animal” means a dog individually trained to do work or perform a specific job or task for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability. (28 CFR §36.104)

   a. Other species of animals, whether wild or domestic, trained or untrained, are not service animals for the purposes of this definition.

   b. The work or tasks performed by a service animal must be directly related to the individual's disability (e.g. navigation, alerting physical support and assistance, preventing or interrupting impulsive or destructive behaviors).
c. Work or tasks for the purposes of this definition do not include the provision of emotional support, well-being, comfort, therapy, companionship, or crime deterrence.

B. Generally

1. The district shall permit the use of a service animal by an individual with a disability unless:
   a. The animal is out of control and the animal’s handler does not take effective action to control it;
   b. The animal is not housebroken.

2. A service animal shall have a harness, leash, or other tether, unless either the handler is unable because of a disability to use a harness, leash or other tether, or the use of a harness, leash, or other tether would interfere with the service animal’s safe, effective performance of work or tasks, in which case the service animal must be otherwise under the handler’s control (e.g. voice control, signals, or other effective means). (28 CFR §35.136(d)).

3. If an animal is properly excluded, the district shall give the individual with a disability the opportunity to participate in the service, program, or activity without having the service animal on the premises. (28 CFR §35.136(b))

4. If there are places in the district where it is determined to be unsafe for a handler and service animal, reasonable accommodations will be provided to assure the individual with a disability has equal access to the activity.

5. Unless the need for a service animal is readily apparent, the individual with a disability or his/her parent will be required to provide the district with information that:
   a. The service animal is required because of a disability; and
   b. What work or task the animal has been trained to perform.
6. The district may not require documentation, including proof that the animal has been certified, trained, or licensed as a service animal; nor that the dog demonstrates its ability to perform the work or task. (28 CFR §35.136(f))

7. Individuals with a disability who have service animals are not exempt from local animal control or public health requirements.

8. Service animals must be licensed and registered in accordance with State and local laws.

C. Delegation of Responsibility

1. The district is not responsible for the care or supervision of a service animal, in accordance with (28 CFR §35.136(e)).
   a. The district is not responsible to pay for or provide a handler to aid the individual with a disability in the control of the service animal.
   b. The district is responsible to provide assistance to an individual with a disability in performing the tasks required of the individual for the care and maintenance of the service animal.

2. If the district normally charges individuals for damage they cause, an individual with a disability may be charged for damage caused by his or her service animal. (28 CFR §35.136(h))

3. The district will designate relief areas for the service animal which will be included in mobility training and orientation of students and animals new to the school.

D. Notification and Responsibilities

1. In the event a service animal will be introduced as part of the school community, the designated administrator will develop a comprehensive implementation plan prior to introduction of the service animal into the school to include:
POLICY

Students
5337/Page 4 of 5
SERVICE ANIMALS

a. Notification to parents of students who may be in contact with the service animal;

b. Appropriate accommodations:
   (1) For students who are allergic to the service animal; and/or
   (2) For students who have fears regarding the service animal.

b. Appropriate etiquette regarding service animals to include:
   (1) Never pet a service animal while it is working;
   (2) Never feed a working service animal;
   (3) Do not deliberately startle, tease, or taunt a service animal;
   (4) Do not hesitate to ask the handler if he or she would like assistance regarding directions for navigating or the facility.

2. The use of a service animal introduced as part of the school community will require inclusion into the student’s Individualized Education Plan (IEP) or the student’s Section 504 Accommodation Plan.

3. The district may request, but cannot require, the owner of a service animal introduced as part of the school community and, as included in the student’s IEP or Section 504 Accommodation Plan, maintain liability insurance for the service animal. The School Business Administrator/Board Secretary will ensure the school district has appropriate insurance in the event a service animal is introduced as part of the school community.

E. Miniature Horses

1. Miniature horses, although not included in the Act under the definition of “service animal,” may only be permitted if individually trained to do work
or perform tasks for the benefit of the individual with a disability and if they meet the assessment factors outlined in 3. below. (28 CFR §35.136(i))

2. Ponies and full size horses are not considered miniature horses.

3. Assessment factors to determine whether the district can reasonably modify its policies, practices, and procedures to allow for the use of miniature horses on its property, facilities, or vehicles include:
   a. Type, size, and weight of the miniature horse and whether the facility can accommodate those features;
   b. Whether the handler has sufficient control of the miniature horse;
   c. Whether the miniature horse is housebroken; and
   d. Whether the miniature horse’s presence compromises legitimate safety requirements necessary for safe operation.

4. All requirements for the use of service animals also apply to the use of miniature horses.

[See POLICY ALERT Nos. 204, 206 and 217]

5756  TRANSGENDER STUDENTS

The Board of Education is committed to providing a safe, supportive, and inclusive learning environment for all students. The New Jersey Law Against Discrimination (NJLAD), N.J.S.A. 10:5-12(11)(f), generally makes it unlawful for schools to subject individuals to differential treatment based on gender identity or expression. Title IX of the Education Amendments of 1972 ("Title IX") specifically prohibits discrimination on the basis of sex in Federally-funded education programs and activities [20 U.S.C. § 1681(a)].

N.J.S.A. 18A:36-41 directs the Commissioner of Education to establish guidelines outlined in this Policy to provide direction for schools in addressing common issues concerning the needs of transgender students, and to assist schools in establishing policies and procedures that ensure a supportive and nondiscriminatory environment for transgender students.

Definitions/Terms

A safe and supportive environment within a school begins with understanding and respect. The Board believes students, teachers, and administrators should be provided with common terminology associated with gender identity. The terms listed below are commonly used by advocacy and human rights groups, however students may prefer other terms to describe their gender identity, appearance, or behavior. It is recommended school personnel discuss with the student the terminology and pronouns each student has chosen.

“Gender identity” means a person’s internal, deeply held sense of gender. All people have a gender identity, not just transgender people. For transgender people, the individual’s internal gender identity is not the same as the gender assigned at birth.

“Gender expression” means external manifestations of gender, expressed through a person’s name, pronouns, clothing, haircut, behavior, voice, and/or body characteristics. Society identifies these cues as masculine and feminine, although what is considered masculine or feminine changes over time and varies by culture.

PRESENTED TO COMMITTEE FOR FIRST READING, MARCH 2019
“Assigned sex at birth (ASAB)” refers to the biological sex designation recorded on a person’s birth certificate upon the initial issuance of that certificate, should such a record be provided at birth.

“Gender assigned at birth” refers to the gender a child is assigned at birth or assumed to be, based on their biological sex assigned at birth.

“Sexual orientation” describes a person’s enduring physical, romantic, and/or emotional attraction to another person. Gender identity and sexual orientation are not the same. A transgender person may be straight, lesbian, gay, bisexual, or asexual. For example, a person who transitions from male to female and is attracted solely to men may identify as a straight woman.

“Transgender” is a term for an individual whose gender identity and/or gender expression differs from those typically associated with the sex and gender assigned at birth.

“Transition” is the process by which a transgender person recognizes that their authentic gender identity is not the same as the gender assigned at birth, and develops a more affirming gender expression that feels authentic. Some individuals socially transition, for example, through dress, use of names and/or pronouns. Some individuals may undergo physical transition, which might include hormone treatments and surgery. School district personnel should avoid the phrase “sex change,” as it is an inaccurate description of the transition process; the process is more accurately described as “gender-confirming.”

“LGBTQ” is an acronym for “lesbian, gay, bisexual, transgender, and queer/questioning.”

“Gender nonconforming” describes a person whose gender expression does not conform to the gender expectations of their family or community. Gender nonconformity is not necessarily an indication that a youth is transgender; many non-transgender youth do not conform to stereotypical expectations.

“Gender expansive, Gender diverse, Gender fluid, Gender non-binary, A gender, Gender queer” are terms that convey a wider, more flexible range of gender identity and/or expression than typically associated with the binary gender system. For example, students who identify as gender queer or gender fluid might not identify as boys or girls; for these students, the non-binary gender identity functions as the student’s gender identity.
“Cisgender” refers to individuals whose gender identity, expression, or behavior conforms with those typically associated with their sex assigned at birth.

STUDENTSS
5756/page 3 of 9
Transgender Students

Student-Centered Approach

The school district shall accept a student’s asserted gender identity; parental consent is not required. A student need not meet any threshold diagnosis or treatment requirements to have his or her gender identity recognized and respected by the school district, school, or school staff members. In addition, a legal or court-ordered name change is not required. There is no affirmative duty for any school district staff member to notify a student’s parent of the student’s gender identity or expression.

There may be instances where a parent of a minor student disagrees with the student regarding the name and pronoun to be used at school and in the student’s education records. In the event a parent objects to the minor student’s name change request, the Superintendent or designee should consult the Board Attorney regarding the minor student’s civil rights and protections under the NJLAD. School staff members should continue to refer to the student in accordance with the student’s chosen name and pronoun at school and may consider providing resource information regarding family counseling and support services outside of the school district.

School districts should be mindful of disputes between minor students and parents concerning the student’s gender identity or expression. Many support resources are available through advocacy groups and resources from the New Jersey Department of Children and Families and New Jersey Department of Education’s “Child Abuse, Neglect, and Missing Children” webpage.

The Principal or designee should have an open, but confidential discussion with the student to ascertain the student’s preference on matters such as chosen name, chosen pronoun to use, and parental communications. A transgender student shall be addressed at school by the name and pronoun chosen by the student, regardless of whether a legal name change or change in official school records has occurred. The school shall issue school documentation for a transgender student, such as student identification cards, in the name chosen by the student. A transgender student shall be allowed to dress in accordance with the student’s gender identity.

The Principal or designee should also discuss with the student, and any other individuals at the student’s request, the risks associated with the student’s transgender status being inadvertently disclosed. For example, the Principal or designee should inform the student the transgender status may be revealed due to other students’ discussions at home. The Principal or designee should work with
Safe and Supportive Environment

The Board developed and adopted this Policy to ensure that its schools provide a safe and supportive learning environment that is free from discrimination and harassment for transgender students, including students going through a gender transition. Gender-based policies, rules, and practices can have the effect of marginalizing, stigmatizing, and excluding students, whether they are gender nonconforming or not.

The Superintendent or designee shall review and update existing policies and procedures, including those regarding classroom activities, school ceremonies, school photographs, and dress codes, to verify transgender students are not excluded. In addition, the school district shall take the following steps to establish and maintain a nondiscriminatory environment for all students, including transgender and transitioning students:

- The school district must comply with N.J.S.A. 18A:37-15 and N.J.A.C. 6A:16-7.7, which prohibit harassment, intimidation, and bullying. The Board is required to develop, adopt, and implement a Policy in accordance with N.J.S.A. 18A:37-15 and N.J.A.C. 6A:16-7.7 that prohibits harassment, intimidation, or bullying on school property, at a school-sponsored function, or on a school bus. If harassment, intimidation, or bullying based on gender identity creates a hostile environment, the school must take prompt and effective steps to end the harassment, intimidation, or bullying, prevent its recurrence, and, as appropriate, remedy its effects.

- The Superintendent or designee should ensure training is provided to school staff members on sensitivity and respect towards transgender students.

- Social and Emotional Learning (SEL) concepts should be incorporated into school culture and curricula.

- The school district may seek a variety of professionals, including counselors and school psychologists, to provide emotional supports for all students who demonstrate a need. The Superintendent or designee shall ensure school counselors are knowledgeable regarding issues and concerns relevant to transgender students.
students facing other gender identity issues, or students who may be transitioning.

STUDENTS
5756/page 5 of 9
Transgender Students

- Student dress codes should not be enforced more strictly for transgender and gender nonconforming students than for other students.

- The school district shall honor and recognize a student’s asserted gender identity, and shall not require any documentation or evidence in any form, including diagnosis, treatment, or legal name change.

- A school’s obligation to ensure nondiscrimination on the basis of gender identity requires schools to provide transgender students equal access to educational programs and activities, even in circumstances in which other students, parents, or community members raise objections or concerns.

Confidentiality and Privacy

School staff members may not disclose information that may reveal a student’s transgender status except as allowed by law. The Principal or designee is advised to work with the student to create an appropriate confidentiality plan regarding the student’s transgender or transitioning status.

The school district shall keep confidential a current, new, or prospective student’s transgender status. Schools should address the student using a chosen name and the student’s birth name should be kept confidential by school and school staff members.

Due to a specific and compelling need, such as the health and safety of a student or an incident of bias-related crime, the school district may be obligated to disclose a student’s status. In this event, the Principal or designee should inform the student the school or school district intends to disclose the student’s transgender status for the student’s protection and well-being. Prior to disclosure, the student should be given the opportunity to personally disclose that information. The school district should make every effort to ensure any disclosure is made in a way that reduces or eliminates the risk of re-disclosure and protects the transgender student from further harassment. Those measures may
include the facilitation of counseling for the student and the student’s family to facilitate the family’s acceptance and support of the student’s transgender status.

During a harassment, intimidation, or bullying investigation the school district is obligated to develop a procedure to report, verbally and in writing, an act of harassment, intimidation, and bullying committed by an adult or youth against a student, pursuant to N.J.A.C. 6A:16-7.7(a)2viii. In this instance, the Principal or designee should inform the student of the school’s obligation to report the findings of the harassment, intimidation, and bullying investigation pursuant to N.J.S.A. 18A:37-15(d), which permits the parents of the students who are parties to the investigation to receive information about the investigation in accordance with Federal and State law and regulation. Under harassment, intimidation, and bullying legal requirements, parents are entitled to know the nature of the investigation; whether the district found evidence of harassment, intimidation, or bullying; or whether disciplinary action was imposed or services provided to address the incident of harassment, intimidation, or bullying.

The Principal or designee shall take into account the circumstances of the incident when providing notification to parents of all students involved in the reported harassment, intimidation, or bullying incident and when conveying the nature of the incident, including the actual or perceived protected category motivating the alleged offense, pursuant to N.J.A.C. 6A:16-7.7(a)2viii(2).

Disclosure of personally identifiable information from a student’s education record to other school officials within the school district, whom the school district has determined have a legitimate educational interest in the information, may be permissible under Family Educational Rights and Privacy Act (FERPA) (34 C.F.R. § 99.31(a)(1)). The school district shall make a concerted effort to ensure school officials obtain access to only those education records in which they have legitimate educational interests.

STUDENTS
5756/page 7 of 9
Transgender Students

School Records

If a student has expressed a preference to be called by a name other than their birth name, permanent student records containing the student’s birth name should be kept in a separate, confidential file. This file should only be shared with appropriate school staff members after consultation with a student. A separate file containing records bearing the student’s chosen name may also be kept. If the student has previously been known at school or in school records by a birth name, the Principal or designee should direct school staff members to use the student’s chosen name and not the student’s birth name.

To ensure consistency among teachers, school administrators, substitute teachers, and other school staff members, every effort should be made to immediately update student education records (for example, attendance records, transcripts, Individualized Education Programs (IEP), etc.) with the student’s chosen name and gender pronouns, consistent with the student’s gender identity and expression, and not circulate records with the student’s birth name, unless directed by the student.

- The school district shall report to the New Jersey Department of Education (NJDOE) through NJ SMART a student’s name or gender based upon that student’s chosen name and corresponding gender identity. Changing the name or gender identity from what was reported in previous years will not affect the reliability of the data reported.

- If the school district changes a student’s name or gender identity, it must also maintain locally a separate record reflecting the student’s legal name and sex assigned at birth until receipt of documentation of a legal change of name or gender.

Activities
PRESENTED TO COMMITTEE FOR FIRST READING, MARCH 2019
With respect to gender-segregated classes or athletic activities, including intramural and interscholastic athletics, all students must be allowed to participate in a manner consistent with their gender identity.

The school district shall:

- Provide transgender students with the same opportunities to participate in physical education as other students in accordance with their gender identity;
- Permit a transgender student to participate in gender-segregated school activities in accordance with the student’s gender identity;
- Permit and support the formation of student clubs or programs regarding issues related to lesbian, gay, bisexual, transgender, and queer/questioning (LGBTQ) youth; and
- Offer support in the creation of peer led educational groups.

Use of Facilities

All students are entitled to have access to restrooms, locker rooms, and changing facilities in accordance with their gender identity to allow for involvement in various school programs and activities.

In all cases, the Principal or designee must work with the student and school staff members so all parties are aware of facility policies and understand the student may access the restroom, locker room, and changing facility that corresponds to the student’s gender identity. While some transgender students will want this arrangement, others may be uncomfortable with it. Transgender students who are uncomfortable using a sex-segregated restroom should be provided with a safe and adequate alternative, such as a single “unisex” restroom or the nurse’s restroom. Similarly, some transgender students may be uncomfortable using the changing facilities that correspond to the student’s gender identity. Non-transgender students should also be afforded the option to use a private facility, such as a unisex facility or the nurse’s restroom, should they feel uncomfortable.

- The school district shall allow a transgender student to use a restroom or locker room based on the student’s gender identity.
• Reasonable alternative arrangements shall be made if needed to ensure a student’s safety and comfort. This direction for accommodations should come from the student.

STUDENTS

Transgender Students

The Superintendent or designee will make available to school staff members a variety of resources regarding professional development opportunities as sourced by the NJDOE as well as developmentally appropriate information for students regarding LGBTQ issues.

The Board adopts this Policy to help school and district administrators take steps to create an inclusive environment in which transgender and gender nonconforming students feel safe and supported, and to ensure each school provides equal educational opportunities for all students, in compliance with N.J.A.C. 6A:7-1.1 et seq.

N.J.A.C. 6A:7-1.1 et seq.; N.J.A.C. 6A:16-7.7
New Jersey Department of Education – October 2018
Transgender Student Guidance for School Districts
7440 SCHOOL DISTRICT SECURITY

The Board of Education believes the buildings and facilities of the school district represent a substantial community investment. The Board directs the development and implementation of a plan for school district security to protect the school community’s investment in the school buildings and facilities.

The school district security program will include: maintenance of facilities that are secure against unwelcome intrusion; protection against fire hazards and faulty equipment; and compliance with safe practices in the use of electrical, plumbing, heating, and other school building equipment. The Board directs close cooperation of district officials with law enforcement, fire officials, and other emergency agencies.

The Superintendent of Schools shall designate a school administrator, or a school employee with expertise in school safety and security as a School Safety Specialist for the district in accordance with the provisions of N.J.S.A. 18A:17-43.3. The School Safety Specialist shall be required to acquire a New Jersey Department of Education School Safety Specialist certification in accordance with the provisions of N.J.S.A. 18A:17-43.2. The School Safety Specialist shall also serve as the school district’s liaison with local law enforcement and national, State, and community agencies and organizations in matters of school safety and security.

Access to school buildings and grounds outside the hours school is in session shall be limited to personnel whose employment requires their presence in the facility. An adequate key control system will be established to limit building access to authorized personnel and guard against the potential of intrusion by unauthorized persons who have obtained access improperly.

Building records and funds shall be kept in a safe place and secured as appropriate and necessary.

Protective devices designed to be used as safeguards against illegal entry and vandalism may be installed when appropriate. The Board may approve the employment of school resource officers, school security officers, and/or law enforcement officers in situations in which special risks are involved.

Adopted: 24 May 2016
R 7440 \textbf{SCHOOL SECURITY}

\textbf{A. Definitions}

“Access” means authorized access to a school building or school grounds through the use of a Board-approved key control system.

“Key control system” means the use of a key, card, code, or any other means to disengage a locking mechanism to provide entry to a school building or school grounds.

“School buildings” and “school grounds” means and includes land, portions of land, structures, buildings, and vehicles, when used for the provision of academic or extracurricular programs sponsored by the school district or community provider and structures that support these buildings, such as school district wastewater treatment facilities, generating facilities, and other central service facilities including, but not limited to, kitchens and maintenance shops. “School buildings” and “school grounds” also includes athletic stadiums; swimming pools; any associated structures or related equipment tied to such facilities including, but not limited to, grandstands; night field lights; greenhouses; garages; facilities used for non-instructional or non-educational purposes; and any structure, building, or facility used solely for school administration. “School buildings” and “school grounds” also includes other facilities such as playgrounds; and other recreational places owned by local municipalities, private entities, or other individuals during those times when the school district has exclusive use of a portion of such land in accordance with N.J.A.C. 6A:16-1.3 and 6A:26-1.2.

\textbf{B. Access to School Buildings and School Grounds}

1. Access to school buildings and grounds during the school day will be permitted to all students enrolled in the school, all authorized school staff members, and visitors pursuant to Policy and Regulation 9150.

2. Access to school buildings and grounds before and after the school day will be permitted to:

   a. Members of the Board of Education;
b. Administrative and supervisory staff members, teaching staff members, and support staff members assigned to a school building or grounds in the performance of their duties;

c. Other school staff members in the performance of their professional responsibilities;

d. Students involved in interscholastic athletics, co-curricular or extra-curricular activities, and authorized spectators;

e. Members of organizations granted the use of school premises pursuant to Policy and Regulation 7510;

f. Police officers, fire fighters, health inspectors, and other agents of Federal, State, and local government in the performance of their official duties;

g. Members of the public present to attend a public Board of Education or public school-related function; and

h. Others authorized by the Superintendent or designee and/or by Board Policy.

3. All visitors to a school building during a school day will be required to register their presence in the school and comply with the provisions of Policy and Regulation 9150. The school’s registration and sign-in procedures may include the use of a school visitor management system requiring the visitor to present acceptable identification to access the school building.

4. Signs will be conspicuously posted to inform visitors of the requirement to register their presence into the building.

C. Key Control System for Access to School Buildings and Facilities

1. School staff members will be provided access to a school building using the school’s key control system as follows:

   a. Teaching staff members and support staff members will be provided access using the school’s key control system to the school
building and to other facilities on school grounds to which they require access for the performance of their professional duties.

(1) The Building Principal will determine the school staff members who shall be provided access to facilities within the school building and on school grounds.

(2) The Superintendent or designee will determine the district administrators, supervisors, and other staff members who shall be provided access to facilities within the school building and on school grounds.

2. School staff members provided access to a school building or other facilities on school grounds shall be responsible for ensuring their key control system authorization is not shared with another individual without prior approval of the Principal or designee for school staff members, or the Superintendent or designee for district staff members. Staff members are prohibited from permitting their key control system authorization to be used by another person unless prior approval is obtained from the Principal or designee at the building level and Superintendent or designee at the district level or in the event of an emergency.

3. A staff member’s loss of a key, card, or any other device authorizing the staff member access to a school building or a facility on school grounds must be immediately reported to the Principal or Superintendent or designee. The staff member who loses a key, card, or any such access device may be responsible for the replacement cost.

D. Staff Member Responsibilities

1. Staff members should not bring to school valuable personal items that cannot be in the staff member’s personal possession at all times. The Board of Education is not responsible for a staff member’s personal possession in the event the item is lost, stolen, misplaced, damaged, or destroyed.

2. In the event a staff member observes a student has a valuable item in school, the staff member will report it to the Principal or designee. A valuable item may include, but is not limited to, an unusually large amount of money, expensive jewelry or electronic equipment, or any item that is
determined by the Principal or designee to be valuable to a student based on the student’s age.

a. The Principal or designee may contact the student’s parent and request the parent come to school to retrieve the valuable item;

b. The Principal or designee may secure the valuable item and return it to the student at the end of the school day and inform the student and the parent not to bring the valuable item to school in the future; or

c. The Principal or designee will permit the student to maintain the valuable item and inform the student and the parent not to bring the valuable item to school in the future.

d. The Board of Education is not responsible for a student’s personal possession in the event the item is lost, stolen, misplaced, damaged, or destroyed when in the possession of the student.

3. Teaching staff members shall close classroom windows and shut and lock classroom doors when leaving at the end of the school day; shut and lock classroom doors during the school day when the room is not going to be in use after their assignment, and report immediately to the Principal or designee any evidence of tampering or theft.

4. Custodians shall, at the end of the work day, conduct a security check of the building to make certain that all windows are closed and all office, classroom, and building doors are shut and locked, except as such doors may be required to be open for persons with access.

5. Office personnel shall take all reasonable precautions to ensure the security of all school and district records and documents against unauthorized access, deterioration, and destruction.

E. School Safety Specialist

1. The Superintendent of Schools shall designate a school administrator as a School Safety Specialist for the district in accordance with the provisions of N.J.S.A. 18A:17-43.3.
2. The School Safety Specialist shall:
   
a. Be responsible for the supervision and oversight for all school safety and security personnel, policies, and procedures in the school district;

b. Ensure that these policies and procedures are in compliance with State law and regulations; and

c. Provide the necessary training and resources to school district staff in matters relating to school safety and security.

3. The School Safety Specialist shall also serve as the school district’s liaison with law enforcement and national, State, and community agencies and organizations in matters of school safety and security.

F. Summoning Law Enforcement Authorities

1. Law enforcement authorities will be summoned promptly whenever evidence is discovered that indicates: a crime has been committed on school premises or in the course of staff or student transportation to or from school; a break and entry may have occurred on school grounds; a deadly weapon is on school premises; a breach of the peace has occurred on school premises; for any reason required in the Memorandum of Understanding between the Board of Education and Law Enforcement and in accordance with Policy and Regulation 9320; or for any other reason there is concern about the health, safety, and welfare of persons on school grounds or school property.

2. A call to law enforcement agents will be reported to the Superintendent as soon as possible, along with the reason(s) for which the call was made and the outcome of the incident.
